

# Robert Amoah Wilde

## Junior Frontend Developer

Junior Frontend Developer with a year of experience able to code web pages from the ground up using HTML, CSS, SASS, JavaScript and React. I have a fundamental understanding of mobile first design concepts, cross browser development, API implementation and search engine optimization (SEO). My passion for programming led me to master problem solving, ability to learn quickly and always stay on top of new technologies. I am looking for the right opportunity to develop my career.

## PROJECTS

### [AUTOMOBILE WEBPAGE](#)

An automobile ecommerce website to purchase various brands of cars. Has a cart page that enables users to select the quantity of cars and also calculates the user's total amount. It's also uses the browser's local storage to store data.

--HTML & CSS--  
--JavaScript—

### [BICYCLE WEBPAGE](#)

A bicycle landing page with a list of bicycles and its accessories to buy. It has pages that links to all bicycles and accessories available with its corresponding prices upon clicking on a button.

--HTML & CSS--  
--JavaScript—  
-- jQuery --

### [QUIZ APP](#)

A quiz app with a timer which automatically selects the correct answer when the timer runs out. It also has a green and red marker assigned to the correct and wrong answer respectively.

--HTML & CSS--  
--JavaScript—

### [MOVIE SEARCH APP](#)

Displays the latest trending movies on the web app. I used a movie API which fetches data from its server and displays it on the page. Also has a search box that allows you to search for a particular movie.

--HTML & CSS—  
--JavaScript—  
--API—

### [MINI-SEARCH APP](#)

A mini search app that enables users to search for anything that comes in mind. It's powered by a Wikipedia API from which the data is fetched.

-- HTML —  
-- SASS —  
-- JavaScript —  
-- API —
